Choosing the right fireplace

A fireplace becomes the focal point of any room, so choosing the right fireplace is essential in creating an atmosphere of warmth and style in your home. With a wealth of experience in fireplace design and manufacture, we are passionate about our expertly crafted fireplaces and offer an extensive range of traditional and contemporary fireplaces in a range of finishes. When choosing your fireplace, there are a number of considerations to take into account.

CONSIDERATIONS

- The type of heating system: solid fuel, gas or electric
- The overall look you wish to achieve: traditional vs contemporary
- The available width and height for the fireplace
- The type of material you wish to choose: limestone, marfil, crema marfil, perla white, ivory pearl, granite, wood
- The care and maintenance required

Caring for your fireplace

Natural stones, marbles and granites are materials naturally formed over millions of years. They have very individual features and characteristics. Each piece is hand crafted to show these natural materials at their best and will form the centrepiece in your home. Your fireplace surface requires a minimum of maintenance to keep it looking as good as new. Dust down regularly with a soft, clean brush and occasionally wipe over with a damp cloth. Consideration should be given to the placement of heavy ornaments. As with all natural materials, exposed areas may fade in strong sunlight. Your natural stone fireplace is quite durable and has been treated with a sealer to help protect and maintain the surface. In the event of an accident, soak up spillages immediately. Buff with a soft, dry cloth. In the event of staining, contact your local stone mason for a specialist cleaning kit.

Marfil Stone

Pastel beige colour, its light, fresh colour can be used to make any room look bigger.

Ivory Pearl

An off-white colour resembling ivory. This stone has an abundance of richness.

Perla White

A crisp white colour complemented by a subtle shine. This stone will bring bightness to any room.

Crema Marfil

Popular classic cream natural marble with distinctive veining that is stylish and sophisticated

Limestone

A natural matt finish stone, with coloured veins on a light background add to the individuality of this wonderful material.

Black Granite

Jet black colour, very hard wearing and timeless.

CLERMONT

Ivory Pearl Surround.

OVERMANTLE COLLECTION

SHAPED OVERMANTLE IN MARFIL
Available in Perla White, Marfil,
Black Granite, Ivory Pearl
and Crema Marfil

RECTANGULAR
OVERMANTLE IN OAK

SKAMOLEX PANELS

Skamolex panels are ideally suited for lining stoves, fireplaces and gas fires and are capable of withstanding temperatures of up to 1100°C. They are made from exfoliated vermiculite and are non-irritant, odourless and clean to handle.

▶ BENEFITS

- High insulation capacity = better performing stove
- Environmentally friendly - better combustion + cleaner waste gasses
- Ideal for fire chambers and inglenooks
- Ideal as a heat shield above a free standing stove
- Easy to use and cut to required size)

▶ PANEL DESIGNS

Skamolex panels are available in six standard patterns, ranging from traditional masonry look to three designs matching the trends of current fires and stoves.

Available in:

- 1000mm x 610mm x 20mm
- 1000mm x 1260mm x 20mm (Brickwall only)
- 1000mm x 610mm x 25mm VIP-900 Plain Skamolex.
- Ideal for replacing internal stoveboards

Loose Vermiculite - loose fill insulation

Available in 100 litre bags

| Fire Classification | A1 non-combustible, no flame |
|-------------------------|------------------------------|
| Max Service Temperature | 1000°C |
| Thermal Conductivity | 0.06W/mK at 200°C |
| Compressive Strength | 2.6N/mm2 |
| Bulk Density | 225kg/m2 |

Brickwall

Rib - available in portrait or landscape
